💼 PROFESSIONAL EXPERIENCE

Software Developer, FarAlpha Technologies   06/2024 – present
- Developed and deployed web applications using AWS Amplify, AWS Elastic Beanstalk, and AWS CodePipeline for efficient CI/CD pipelines, ensuring seamless integration and deployment processes.
- Built responsive frontends with Next.js, React.js, and Tailwind CSS, including server-side API development in Next.js to handle backend functionality seamlessly.
- Developed the frontend for a car-specialized chatbot using Langflow, integrated with a Python backend for natural language processing and user interaction.

Frontend Developer, Gyandhan   06/2023 – 12/2023 │ Remote
- Leveraged Tailwind CSS to create pixel-perfect, responsive interfaces aligned with client-provided Figma designs, integrating seamlessly with Ruby on Rails-based applications.
- Proficient in Git version control, employing branching strategies and pull requests to ensure high-quality code reviews and organized development workflows.

Associate Software Engineer (Intern),   07/2022 – 04/2023 │ Hyderabad, India
PeopleLink Unified Communications Pvt. Ltd
- Worked with React.js, Redux.js, and Material UI to enhance user interfaces with a focus on UX.
- Extensive experience with WebRTC and socket.io, implementing breakout rooms, one-to-one chats, group chat features, and media sharing.
- Collaborated with developers on live projects, improving UIs and strengthening CSS skills through training and peer feedback.

🎓 EDUCATION

Bachelor's of Technology (CSE), GLA University   2019 – 2023 │ Mathura

Class 12th, Ess Ess Convent Sr. Sec. School   2018 – 2019 │ Agra

Class 10th, Ess Ess Convent Sr. Sec. School   2016 – 2017 │ Agra

🧠 SKILLS

React JS │ Next.js │ Tailwind CSS │ JavaScript │ TypeScript │ HTML5 │ Frontend Development │ CSS │ GitHub │ MySQL │ Socket.io │ BotPress │ Java │ Responsive Design │ Visual Studio Code │ AWS Basics │ Linux │ Astro JS │ Python │ RESTful APIs │ jQuery │ Ruby on Rails │ Langflow │ Team Collaboration │ Debugging │ NPM │ Adaptability │ Creative Thinking │ Next.js API development

📁 PROJECTS

Gyandhan Website 🔗
- Technologies used- Ruby on Rails, Tailwind CSS, JavaScript
- Led the frontend development of gyandhan.com 🔗 , delivering a highly responsive and interactive user interface that ensures an exceptional user experience.

Personal Portfolio Website 🔗
- Technologies used - Astro, Tailwind CSS, and HTML
- It is a dynamic personal portfolio website showcasing my skills, projects, and achievements. Designed for easy exploration and connection
